Explore the Largest Remaining Wilderness in the United States

The Everglades offers scenic beauty that may escape visitors at first glance. It requires close inspection and rewards those who take the time to observe and explore its natural treasures. Traveling by bicycle allows the freedom to explore this subtropical paradise of cypress swamps, freshwater marshes, wet and dry prairies, and rare tropical hardwood hammocks. Wildlife viewing is excellent and we have been privileged to observe the Florida panther, Black bear, deer, otters, bobcat, alligators, turkey, boar, mink, unusual birds and beautiful butterflies. We ride among rare and endangered plants such as native orchids, tropical flowering

trees, giant ferns, fruit trees, towering palms, rare hardwood trees, herbs and bromeliads. Few places in the world can rival the variety and diversity of the more than 440 species of birds, mammals and reptiles. This cycling tour is a unique opportunity to observe and enjoy the Everglades in its natural state. Our Certified Naturalist Guides will show you the hidden secrets of this amazing landscape.

Discover The True Everglades with our Unique Cycling Tour
